

LEVEL 3[®] MANAGED VIDEO CONFERENCING

LEVERAGE YOUR EXISTING NETWORK FOR SIMPLIFIED COLLABORATION

There is no replacement for the impact of having a face-to-face meeting with critical stakeholders. But with the costs and hassles of travel, you need a way to create that impact without relying on time consuming transportation. After all, time is your most limited resource.

Level 3[®] Managed Video Conferencing services allow you to connect face-to-face with stakeholders around the world – without the challenges and costs of traveling. Get the immediacy and impact only streaming and video conferencing can provide. We leverage IP VPN-enabled, global network to seamlessly deliver video and other applications through a single VPN port and local loop. Utilize our intelligent network to enable the highest quality video and audio for yourself and your participants.

Business Solutions

Cost-Effective: Our converged IP VPN-enabled global network, can cost-effectively provide the reach, efficiency, flexibility, and quality you need to realize the true value of video conferencing and increase productivity.

Connection Compatibility: Level 3 supports ISDN video conferencing and IP video.

Interoperability: We developed an interop platform that allows you to connect to standard, high definition and telepresence equipment across the globe.

Level 3 lets you meet with confidence using a web conferencing service that is simple, intuitive, highly reliable and makes it easy to host or join a meeting.

Connecting geographically dispersed employees, customers, partners and suppliers around the world at a moment's notice has never been easier.

Level 3's Collaboration Solutions offer a suite of audio, video and web-conferencing services that help you boost workplace productivity while maximizing your organization's time, resources and global communications.

Technical Features / Capabilities

- Simple onboarding: No downloads or plug-ins are required
- Global fiber optic network to ensure maximum reliability and availability
- Features MPLS connection with quality of service (QoS)

Why Choose Level 3[®] Managed Video Conferencing?

We Own Our Network: The collaboration network is the same telecommunications network used by our data and voice customers. This allows us to streamline your video delivery and control your conference quality.

Level 3[®] Smart WAN Service: We match our MCU bridges around the world to the needs of your conference, which provides you with the best quality possible.

Video endpoint management: We help ensure your on-premise equipment is functioning effectively and efficiently.

Experienced Experts: The long tenure of our Collaboration Services team members allows you to benefit from our industry expertise and premium customer service.

Proven Call Quality: Ditech Echo Cancellers architecture, installed as a network augment, supports enhanced and proven international call quality.

Disaster Avoidance Strategy: We support you with load balancing, dual provisioning, failover, and alternate routing to other bridges.

Strong Intercarrier Relationships: We have the advantage of leveraging our existing carrier volumes and relationships globally for aggressive pricing solutions, quicker service delivery and faster trouble resolution.

ABOUT LEVEL 3

We build, operate and take end-to-end responsibility for the network solutions that connect you to the world. We put customers first and take ownership of reliability and security across our broad portfolio.
