LEVEL 3SM WEB MEETING

REAL-TIME, INTUITIVE, ROBUST COLLABORATION AT YOUR FINGERTIPS

JANUARY 2017

Connecting and Protecting
the Networked World™

Today, organizations are finding that rudimentary web conferencing applications are inadequate and frustrating to use. Enterprises recognize the need to deploy more comprehensive productivity tools that are flexible for a wide range of collaborative use cases. Convergence of communication silos, cloud, mobility and social media are transforming the web conferencing landscape and empowering users with greater productivity benefits than ever before.

With Level 3SM Web Meeting you can enjoy high levels of productivity and efficiency while bridging the geographic distance between offices and employees with a single and ubiquitous collaboration solution. Level 3SM Web Meeting's intuitive and immersive online meeting experience will help maximize time, resources and speed to market. The service makes scheduling and conducting online meetings and webinars a snap, eliminates the requirement for special software or downloads, and supports a broad range of platforms and browsers. Level 3SM Web Meeting's simple and reliable all-in-one collaboration and webinar solution will arm you with the necessary tools and functionality to streamline operations, reduce costs and ultimately make a real impact on the bottom line.

BUSINESS SOLUTIONS

Flexible and Scalable: Level 3SM Web Meeting is flexible and scalable, accommodating small intimate groups and large groups of 300 on-demand, and up to 5,000 web participants for webinars. There is no need to buy separate solutions for ad-hoc collaboration meetings and webinars, as everything is integrated into a single platform.

Seamless Integration with Level 3's Audio & Event Conferencing

Services: Level 3SM Web Meeting is completely integrated with Level 3SM Ready-Access[®] audio conferencing and Level 3SM Event Call Services so you don't have to worry about managing multiple vendors, billing platforms or customer care teams. Users have a consistent user experience leveraging a single set of access credentials across multiple functions.

Simplified Access: Joining a web conference can be a hassle. A hefty download, the wrong software version or an unsupported platform or browser can frustrate participants. With the Level 3SM Web Meeting service there are no complicated downloads or special software requirements so participants can join meetings with ease. Additionally, we have our full set of Level 3[®] XpressMeetSM Solutions available for even quicker meeting access.

Cost Savings: With Level 3SM Web Meeting, you can communicate quickly, efficiently and cost-effectively as a group without traveling. Plus, with Level 3SM Web Meeting, you don't have to pay for extra features or deal with cost and hassle of managing multiple vendors; everything is integrated into the Level 3SM Web Meeting solution.

Test Your Computer
Test your computer for compatibility prior to the meeting.

- Social media promotion tools to easily post a meeting notice to your Facebook or Twitter pages with a link to either register for the meeting or to join the meeting, depending on the meeting registration type
- Email invitations

In-Meeting

- No downloads for participants
- Java-free plugin
- Reservation-less dial-in audio – With Level 3SM Web Meeting’s on-demand meeting capability, there is no need to book your call in advance; you can start a call with anyone, anywhere, at anytime

- VoIP audio option – Level 3SM Web Meeting VoIP audio lets you use the internet to make and receive telephone calls
- Optional security passcode
- Option for operator-assisted audio – Level 3SM Web Meeting gives the host the option of operator services throughout the web conference
- Broadcast audio – The audio portion of a web conference can be broadcast over the internet, instead of, or in addition to, over the phone. This allows participants to listen to the meeting when using a phone is not convenient
- Appoint co-presenters

Post-Meeting

- Post-meeting survey
- Follow-up emails
- Comprehensive reporting – reports include who was invited to your meetings, who registered and how they registered, and who actually attended the meetings. The reports also include info collected during registration, as well as information from the meeting itself, such as chat transcripts, polling results, and post-meeting survey results.
- Meeting archive page

Recording & Archiving

- One-click recording
- Robust editing tool
- No download to view the recording

- Archive or download recording
- Industry-standard file formats
- Mobile playback of recordings
- Embedding options
- Security and registration options

LEVEL 3SM XpressMeet SOLUTIONS

- Level 3SM XpressMeet Calendar seamlessly integrates Outlook and Google Calendar so you can schedule and join audio and web conferences right from the application.
- Level 3SM XpressMeet Mobile on iPad, iPhone and Android allows you to start and join every audio and web conference from your mobile device. It's the fastest way to connect from any phone - your desk, a conference room or on the road via your mobile phone.

- Level 3SM XpressMeet Desktop enables you to handle everything from your desktop computer. Join conferences, invite and manage participants, and moderate your meetings with a click.

THIRD-PARTY INTEGRATIONS

Level 3SM Web Meeting is seamlessly integrated with key business systems and features an open API for custom integration which allows an application to programmatically share data with Level 3SM Web Meeting, eliminating the time-consuming task of moving data between systems. When you integrate the Level 3SM Web Meeting API, you can share registration and attendance data between Level 3 and other key applications – saving time and increasing data accuracy.

WHY CHOOSE LEVEL 3SM WEB MEETING

Single Vendor Management: Level 3's global footprint and comprehensive portfolio of collaboration services are designed to simplify deployment, adoption, support and billing.

Support Model: Level 3 offers instructor-led end user training sessions, pre-recorded self-service training tools, and a 24/7 help desk with web support experts.

Full Functionality at a Competitive Price: Level 3SM Web Meeting is an all-inclusive, scalable solution for ad-hoc collaboration meetings and webinars; everything is integrated into a single platform.

Designed to Support Future Growth: Easily adapt your network as your business grows. Accommodate increased demand for high-quality, reliable unified communications and collaboration applications and services.

ABOUT LEVEL 3

We build, operate and take end-to-end responsibility for the network solutions that connect you to the world. We put customers first and take ownership of reliability and security across our broad portfolio.
